REMARKS

Reconsideration in view of the foregoing amendments and the following remarks, and entry of this paper is respectfully requested.

I. Interview Summary

The applicant wishes to thank Examiner Nguyen for the telephonic interviews conducted with the Applicant's Attorney, the undersigned, on November 14, 15 and 16, 2006. All pending claims with proposed amendments to claims 1, 4 and 15 were discussed. The amendments to claims 1, 4 and 15 appear above. Agreement was reached as to all pending claims, and that they were allowable over the art of record. Claims 7-14 were agreed to be cancelled without prejudice, to move the allowable claims to receive a Notice of Allowability. The cancellation of these claims appears above.

II. Status of the Claims

Claims 1- 6 and 15 are pending in the instant Patent Application. Claims 1, 3-5 and 15 have been amended. Support for the amendments to claims 1, 4 and 15 is found, for example, in Drawing Figures 1A-1D. Claims 1, and 3-5 have been amended for formalities only, for clarity, to remove a hyphen between "horizontally" and "aligned," with an additional amendment to claim 4 deleting "'N number of." Claims 7-14 have been cancelled without prejudice.

III. Additional Remarks

It is respectfully asserted that claims 1-6 and 15 are allowable over the art of record, as per the Interview Summary above.

Claims 7-14 have been cancelled without prejudice. In making this cancellation without prejudice, the applicant reserves all rights in these claims to file Continuation patent applications.

Drawing Figs. 1A, 1B and 1D have been amended to add element 102a, an arm, on the support member 102. The specification has been amended accordingly. It is respectfully asserted that this arm 102a is clearly shown on the support 102, and accordingly is a proper amendment to this patent application.
